ABOUT CYBORG SECURITY

The next generation of contract security

Cyborg Security is a 100% black-owned South African private company, registered with the Companies and Intellectual Property Commission. The business began in 1984 as a close corporation in civil and building works. In 2013 it was converted to a private company, Cyborg Security (Pty) Ltd, and the security division was launched — bringing together experienced security personnel, many from the armed forces, to help South Africans fight crime and protect what they have built.

We provide much more than "deter, detect and report". We take ownership of every client's premises, add value through superior customer service and attention to detail, and ensure that every officer represents our clients with pride through appearance and attitude. Our services are carried out by well-trained, equipped and motivated personnel who are monitored hourly by line supervisors and our central control office.

Our vision

To be a benchmark security service company — comparable to the best in the industry and meeting international standards in security service.

Our mission

To offer reliable, cost-effective, customer-oriented security services by selecting the best security officers, training them and retaining them to deliver quality service.

Our values

Dignity and respect for every client · Honesty and loyalty · Professional conduct · Quality customer service · Upholding PSIRA requirements and national legislation.

— SERVICE OFFERING

Full-spectrum security, one accountable partner

Construction Site Security

Gate control, plant and material registers, perimeter patrols and drone/K9 overwatch.

Office Building Security

Front-of-house officers, access control, after-hours patrols and key holding.

Mobile Patrol & Response

Randomised patrols, alarm and panic response, key holding and inspections, 24/365.

Access Control

Pedestrian and vehicle gates, visitor screening, turnstile and biometric operation.

Residential Complexes & Estates

Gatehouse control, perimeter and electric-fence patrols, HOA reporting.

Apartment Buildings

Lobby and parking control, deliveries, corridor and basement patrols.

Warehouse & House Security

Loading-bay and load verification, yard patrols, residential guards.

Emergency & Alarm Response

24/7 control room verification, armed reaction and SAPS liaison.

Special Events Security

Security planning, access control, crowd management and VIP protection.

Condominium Concierge & Patrol

Hospitality-trained concierge officers with scheduled patrols.

Factory Security

Gatehouse and search procedures, critical infrastructure and strike contingency.

K9 (Licensed Dogs) Unit

Qualified handlers and trained patrol dogs for deterrence and detection.

Mounted (Horse) Patrol Unit

Horseback patrols for estates, open land, farms and large events.

Drone Surveillance & Pilots

Multi-rotor and fixed-wing drones with thermal and 10x zoom payloads.

— SPECIALIST SERVICES

VIP and close protection · Armed reaction and armed guarding · CCTV and remote monitoring with full control-room functionality · Private investigations · Retail and banking security · Mining security · National Key Point support · Fleet tracking, vehicle escorts and secure deliveries · AI video analytics and radar perimeter detection.

OPERATIONAL MODEL

Accountable on every site

Every contract

- Scope of work defined for the company and each site
- Site due diligence before finalising a service level agreement
- Adherence to contract terms and confidentiality
- Strike-action contingency planning
- Staff supervision with unannounced day and night site visits
- Hourly radio check-ins with the central control office
- Performance evaluation and monitoring
- Incident reports, weekly reports and monthly management reports
- Contingency and emergency control procedures

A site manager and competent supervisors are appointed for every contract and are fully familiar with its terms.

Recruitment & screening

All officers are screened through PSIRA and SAPS before employment, and attendance of recognised training at accredited institutions is verified. Background checks go back as far as 20 years. We welcome candidates with armed-forces, first-aid and other relevant experience, and pay above the industry average.

- Relevant education, experience and physical fitness
- PSIRA registration and SAPS clearance
- Recognised security training certificates
- Literacy, numeracy and communication in English and local languages
- Induction and refresher training for all staff

Training & development

Course content includes health and safety, first-aid awareness, fire awareness, staff development and security training. Staff progress through the ranks with courses in store detection, supervision, CCTV operation, arrest and restraint, vetting and screening, and close protection. Firearm and dog-handling training is open to all staff.

Equipment

Two-way and base radios · cellular phones · vehicles and bicycles · metal detectors · torches · baton and handcuffs where appropriate · gun and key safes · K9 units · drones with thermal and zoom cameras · full uniform.

COMPLIANCE & LEGAL MANDATES

Licensed, accountable, fully compliant

PSIRA

Registered security service provider; every officer PSIRA-registered and graded.
